

AXOLLUTE Nighter — Whice

bticino

Mysteriously black.
Axolutely unique.

Simply white.
Axolutely unique.

AXOLUTE Nighter

The exclusive AXOLUTE version
where black glass has the leading role

Nighter Video Station for video door entry systems
and MY HOME systems

Nighter control for MY HOME systems

Nighter black glass cover plates combined
with the AXOLUTE anthracite colour devices,
for an aesthetically coordinated system

AXOLUTE Nighter

is the monochromatic black line where elegance and technology are brought out best

Wiring devices, MY HOME and video door entry system, all aesthetically coordinated: black glass and blue led to highlight the interfaces

AXOLUTE Whice

The sophisticated AXOLUTE version
where white glass has the leading role

Whice Video Station for video door entry systems
and MY HOME systems

White control for MY HOME systems

White white glass cover plates combined with the AXOLUTE aluminium colour devices, for an aesthetically coordinated system

AXOLUTE White

is the monochromatic white line where controls' invisibility and technological sublimation come up with the right balance

Wiring devices, MY HOME and video door entry system, all aesthetically coordinated: white glass and blue led to highlight the interfaces

Nighter and Whice Video Station: video door entry system

The AXOLUTE **Nighter** and **Whice** handsets and the new AXOLUTE **Outdoor** entrance panels bring a significant added value to the video door entry system

Outdoor entrance panels

Nighter and Whice Video Station:

full integration with MY HOME

Integrated in a MY HOME system, the **Nighter** and **Whice** Video Stations become a focal point to control the whole system. Furthermore, compared to traditional Video Stations, Nighter and Whice can interact with the **multimedia interface**. This enables to manage the multimedia contents of external devices (PC, DVD player, etc.)

Plasma or LCD TV

Devices such as DVD players, PCs and Mp3 players can be connected to the multimedia interface and used as the multimedia source of the MY HOME system.

Personal Computer

ITEMS OF THE BTICINO CATALOGUE

Video door entry system:
Axolute Nighter and Whice Video Station

Video door entry system:
Axolute Outdoor

The multimedia interface icon menu can be displayed and managed by means of the TV as well as the Nighter and Whice video stations

Nighter and Whice controls:

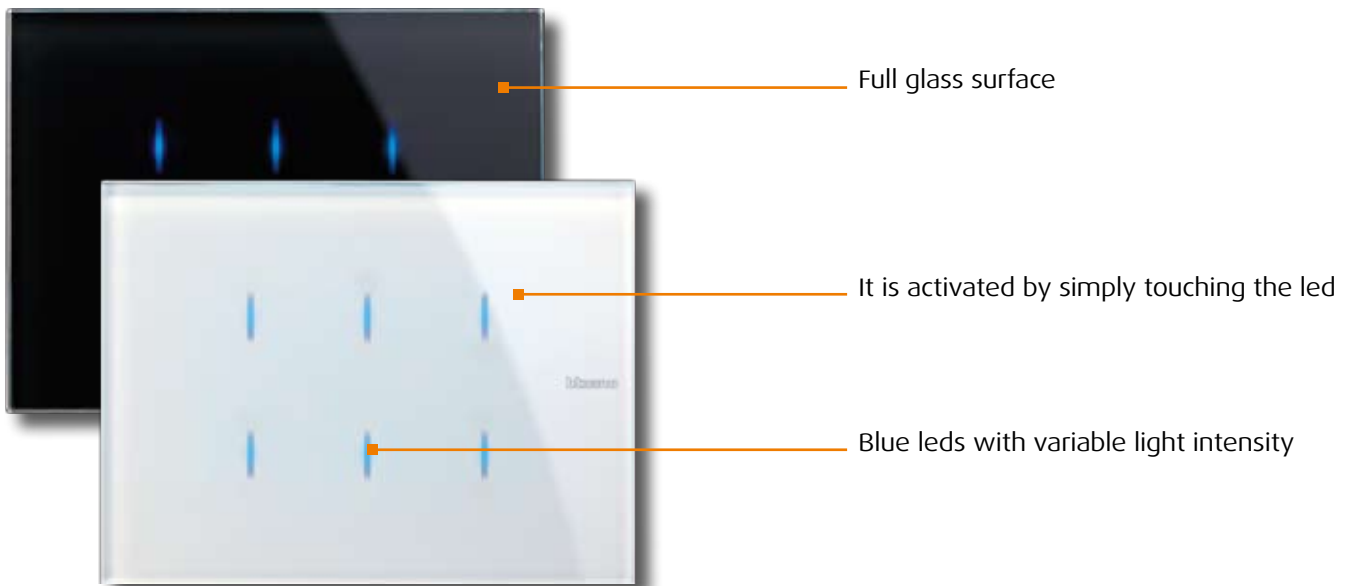

soft key controls for MY HOME system

The Nighter and Whice controls are MY HOME controls which enable to manage:

- single or group loads (e.g. lights and roller blinds)
- HI-FI stereo sound system
- Scenarios
- Basic door entry system functions (e.g. opening gates)

These monobloc units are available in 2 dimensions:

- 3-Module for 503E flush mounting box
- 4-Module for 504E flush mounting box

3-Module Nighter and Whice controls

The configuration can be performed in two different ways:

- physically: by inserting physical configurators in their respective seats
- virtually: the control can be configured from a remote position by means of a Pocket PC or a PC

Nighter and Whice controls:

an alternative to the MY HOME controls already in the catalogue

The Nighter and Whice controls are MY HOME controls that can be used as an alternative to those already included in the catalogue. **Since they are monobloc units, their use must be decided when projecting the system in a first phase.**

Single load control and scenario control

Soft Touch control: lights and HI-FI stereo sound system

HI-FI stereo sound system

Scenarios

Some of the applications which can be managed by means of Nighter and Whice controls

Nighter and Whice cover plates

AXOLUTE Nighter and Whice are completed with dedicated cover plates to arrange any light switches point in the house, in favour of a full aesthetical coordination with Video Stations and digital controls.

NIGHTER COVER PLATES

Made of black glass, with a black internal frame, to combine with the AXOLUTE anthracite colour devices.

2-module Nighter cover plate with MY HOME controls

3-module Nighter cover plate with traditional devices

WHICE COVER PLATES

Made in white glass with a light internal frame matching with the Axolute mechanisms

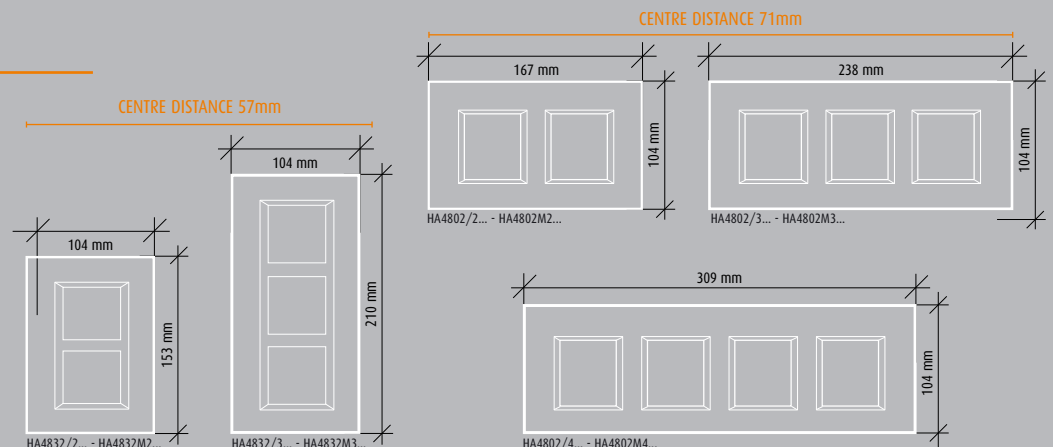

2-module Whice Cover plate with MY HOME controls

3-modules Whice cover plate with traditional devices

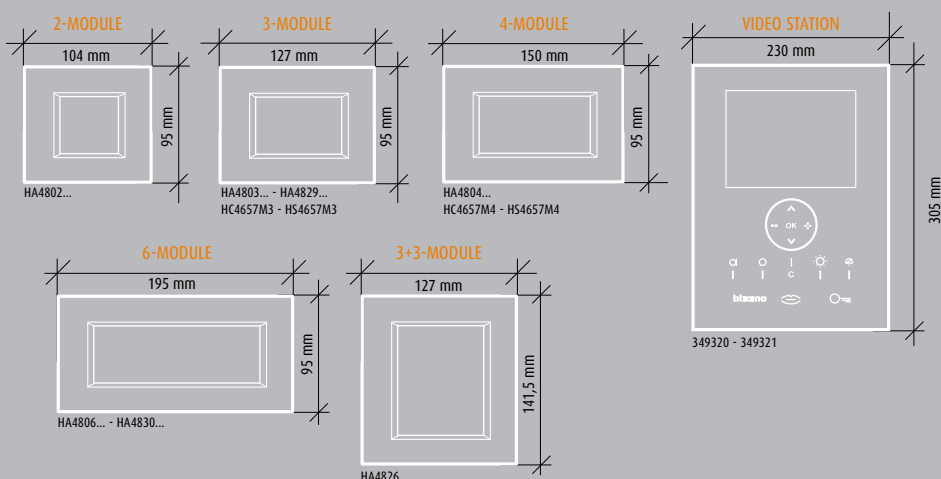

Dimensional data

AXOLUTE Nighter e Whice:

the whole coordinated system

The system becomes uniform in all its parts: a single material, glass, and a single color, black or white, to dress the wiring devices, the video door entry system, the video door entry system and MY HOME.

AXOLUTE Nighter catalogue:

Nighter Video Station

ITEM

349320

Stereo terminal with loudspeakers installable in 2-wire video systems. 8" colour LCD display. It can be integrated in the MY HOME system, and it's provided with an icon menu customizable by means of a PC for managing the following functions: video door entry system, temperature control, HI-FI stereo sound system, scenarios, alarms. In systems integrated with the HI-FI stereo sound system, the video station acts like an amplifier and enables to play all the audio signals present in the system. Provided keys: browsing, auto switch-on, door lock release, lights on staircases, mute, loudspeaker and pager connection. Indicator led for: call exclusion, door status, connection that can be linked to the multimedia interface. Configuration by means of physical configurators and from the menu. USB and RS232 PORT for programming. It can be installed on the wall using the bracket provided. *Note: the display size could be subject to small changes.*

Nighter control

ITEM

HS4657M3

MY HOME control which enables to manage single or group's loads (e.g. lights and roller blinds), HI-FI stereo sound system, scenarios, basic door entry system functions (e.g. opening gates). The configuration can be performed in two different ways: physically (by inserting physical configurators in their respective seats), virtually (the control can be configured from a remote position by means of a pocket PC or a PC). Provided with 6 soft keys, which are activated by touching and identified by means of a blue led with variable light intensity. 3-Module. It can be combined with up to 3 ON-OFF functions or 6 cyclical functions.

ITEM

HS4657M4

MY HOME control as above. 8 keys. 4-Module.
